МОДУЛЬНА КОНТРОЛЬНА РОБОТА № 1

Major: 192 "Construction and Civil Engineering"

Subject "Professional Foreign Language"

Variant 1

I. Translate the given words and word combinations into English.

- | | |
|---------------------------------|-------------------------------------|
| 1. залізобетон | 6. дрібний, тонкомелений порошок |
| 2. будівельний майданчик | 7. гіпс |
| 3. волокнистий | 8. деревинно-волокниста плита (ДВП) |
| 4. перевезення, транспортування | 9. бетон |
| 5. будівельний розчин | 10. сланець |

II. a) Translate the text into Ukrainian.

b) Put 3 special questions to the text.

Aggregate is a coarse material used in construction, which includes sand, gravel, crushed stone, slag, recycled concrete and others. Aggregates are components of composite materials such as concrete. The aggregate serves as reinforcement to add strength to the overall composite material. Aggregates are widely used in drainage applications such as foundation, retaining wall drains, and road side edge drains. Aggregates are also used as base material under foundations, roads, and railroads. Fine and coarse aggregates make up concrete mixture. Sand, natural gravel and crushed stone are used mainly for this purpose. Recycled aggregates are used as partial replacements of natural aggregates, while a number of manufactured aggregates are also permitted.

III. Answer the following questions.

1. What is an engineering brick?
2. What is cement? What is cement used for?
3. What types of walls do you know according to their purpose?

IV. Translate the following sentences into English.

1. Залізобетон — це будівельний матеріал, який складається зі сталеві арматури та бетону.
2. Будівельні розчини складаються з в'язучої речовини (цемент, вапно, гіпс, глина), дрібного заповнювача (піску), води і добавок.
